At Doodlehaus Pups we match our puppies with families based on temperament first. Color and gender are secondary considerations. We can tell you in advance what the coloring and size of the litter will be, but only mother nature can dictate the outcome of a litter. We will do our best to match as many of your preferences as possible, but we can not guarantee gender. We want to ensure the dog is right for your family just as much as your family is right for the dog. To do this we ask that you be flexible so that we can meet your temperament expectations.

If there is a reason why you would not accept a puppy regardless of gender/color please let us know why.
